

IN THE CLAIMS

Please substitute the following amended claims for corresponding claims previously presented. A copy of the amended claims showing current revisions is attached.

4. A method of locating a potential source of fluid leakage in a fluid container as claimed in claim 1 and further including the step of using a leak detector to detect air leakage from said bagged region of the surface after the step of removing the air between the cover and the surface and if air leakage is detected appropriately repairing the cover or its seal to the surface.
5. A method of locating a potential source of fluid leakage in a fluid container as claimed in claim 1 and wherein the leak detector used is an ultrasonic leak detector.
6. A method of locating a potential source of fluid leakage in a fluid container as claimed in claim 1 and, where a potential source of leakage is located, including the further steps of:
repairing the source;
repeating the method and repairing any further sources found; and
filling the container with fluid and monitoring it for fluid leaks.
